MTO Proposing to Change Licence Renewal Requirements for Class D

The Ministry of Transportation (MTO) is proposing to, once again, amend regulation 340/94 to change the licence renewal requirements for Class D drivers. Specifically, changes are being proposed to bring Class D requirements for vision, knowledge, and medical filing in line with all other commercial class drivers. Proposed changes include:

- All drivers up to age 64 would be subject to knowledge and vision tests every 5 years;
- All drivers under the age of 46 would be required to submit a medical report every 5 years;
- All drivers age 46-64 would be required to submit a medical report every 3 years; and
- All drivers age 65 and older would be required to submit a medical report annually.

The chart below outlines the current and proposed renewal requirements for all commercial vehicle classes.
